We only select high quality Italian ingredients which have obtained both the **I.G.P.** and **D.O.P.** certification to offer our customers a genuine and traditional product worthy of its fame.

OUR DOUGH

After an initial fermentation of 24 hours, we let it rest for another 36-48 hours after it is ready, we use a blend of flours developed for us by **Molini Pizzuti** for contemporary Neapolitan pizza, composed of a percentage of flour 0, 1, 2.

We use less refined flours so that fewer chemicals participate in the refining process.

We also think of you on a nutritional level, our flour contains 28 grams of protein per 100 grams.

Our Pizza is not only carbs

PIZZAS
